

SCHEDULE FERA

Sheet 1

FAMILY ELECTRIC RATE ASSISTANCE PROGRAM

APPLICABILITY

Applicable to domestic service customers residing in permanent single-family dwellings, and sub-metered multifamily dwellings, mobilehome parks, or qualifying RV parks and marinas located on a single premise where all of the accommodations are separately metered by the utility.

This schedule is not applicable to customers receiving service under Schedule E-CARE and Schedule DM.

Customers eligible for this schedule must meet specific income guidelines and have at least one (1) or more persons residing in each individual accommodation, as set forth in Special Condition 1, in order to receive the benefit of this schedule.

TERRITORY

Within the entire territory served by the Utility.

RATES

Eligible customers served under this schedule are responsible for all charges from their otherwise applicable rate schedules. In addition, pursuant to Commission Decision 15-07-001 these customers will receive an effective FERA discount of 18% that consists of: (a) exemption from paying the California Solar Initiative (CSI); (b) a 50% minimum bill relative to standard residential customers (e.g., Schedule DR customers not on FERA or California Alternate Rates for Energy (CARE)); and (c) a separate line-item bill discount of 0.17974 applied to the total bill (less any minimum bill amount) as calculated for bundled service customers.

SPECIAL CONDITIONS

1. Lower-Middle Income Household. A Lower-Middle Income Household is a household where the total annual gross income from all sources is within the amounts shown on the table below based on the number of persons living in the household. Total gross income shall include income from all sources, both taxable and nontaxable, shall be no more than:

<u>Number of Persons Living in Household</u>	<u>Total Annual Gross Income</u>
1-2	\$42,301 - \$52,875
3	\$53,301 - \$66,625
4	\$64,301 - \$80,375
5	\$75,301 - \$94,125
6	\$86,301 - \$107,875
7	\$97,301 - \$121,625
8	\$108,301 - \$135,375
Each Additional Person Add	\$ 11,000 - \$13,750

These annual gross income levels have been provided by the Commission and are based on 200% plus \$1 and 250% of the Federal Poverty Limit, and are subject to revision pursuant to the Commission's communication of new levels which shall occur no later than May 1 of each year.

FAMILY ELECTRIC RATE ASSISTANCE PROGRAM

SPECIAL CONDITIONS (Continued)

2. Application and Eligibility Declaration.* An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration will be required at the request of the utility. Customers are only eligible to receive service under this rate at one residential location at any one time and the rate applies only to a customer's permanent primary residence. This schedule is not applicable where, in the opinion of the utility, either the accommodation or the occupancy is transient.
3. Commencement of Rate. Eligible customers shall be billed on this schedule commencing no more than one billing period after receipt of the application by the utility.
4. Verification.* Information provided by the applicant is subject to verification by the utility. Refusal or failure of a customer to provide documentation of eligibility acceptable to the utility, upon request by the utility, shall result in removal from this rate schedule.
5. Notice From Customer. It is the customer's responsibility to notify the utility if there is a change in eligibility status.
6. Rebiling. Customers may be rebilled for periods of ineligibility under the applicable rate schedule.
7. Combined Rates. This schedule may only be combined with Rate Schedules with single family services that are separately metered by the utility or a sub-metered tenant of a master-metered utility customer.
8. Billing. A customer's bill is first calculated according to the total rates and conditions listed above. The following adjustments are made depending on the option applicable to the customer:
 - a. **UDC Bundled Service Customers** receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Rates set forth above. The EECC component is determined by multiplying the EECC price for this schedule during the last month by the customer's total usage. The DWR-BC** component is determined by multiplying the DWR-BC** rate by the customer's total usage
 - b. **Direct Access (DA) and Community Choice Aggregation (CCA) Customers** purchase energy from a non-utility provider and continue to receive delivery services from the Utility. The bills for a DA and CCA Customer will be calculated as if it were a UDC Bundled Service Customer, then crediting the bill by the amount of the EECC component and DWR-BC** component for continuous DA customers that are exempt from the DWR-BC** charge, as determined for a UDC Bundled Customer, and including the appropriate Cost Responsibility Surcharge (CRS), if applicable.

9. EV Submetering

Per Decision (D.) 22-08-024, where electricity is furnished for EV charging, a customer may use the EV Supply Equipment as a submeter to measure EV charge load, provided it meets the requirements established in the Plug-In Electric Vehicle Submetering Protocol Attachment A to D.22-08-024. Customers receiving Family Electric Rate Assistance Program (FERA) discounts are eligible for submetering. The utilities shall apply FERA discounts to both the load measured at the primary meter and the submetered load if the tariffs allow for FERA enrollment.
